

Beginner Assignment**JavaScript Conditional Statement Assignments:**

1. Write a program to check if a number is divisible by 7 or not?
2. Write a program to check if a number is multiple of 3 or not?
3. Write a program to check if a number is positive or not?
4. Write a program to check if a number is having 4 at the unit's place or not?
5. Write a program to check if a number is 3-digit numbers or not?
6. Write a program to print even or odd for a given number?
7. Write a program to print the greatest number in given two numbers?
8. Write a program to print the least number given two numbers?
9. Write a program to print the greatest number in given three numbers?
10. Write a program to print the least number in given three numbers?
11. Write a program to print the given 3 numbers in ascending orders?
12. Write a program to print the given 3 numbers in descending orders?
13. JavaScript Program to find largest of Three Numbers?

JavaScript While Loop and For Loop

1. Write a program to print 1 to 10 numbers using a while loop
2. Write a program to print 10 to 1 number using a while loop
3. Write a program to print 5 to 15 numbers using For Loop
4. Write a program to print 15 to 10 numbers using for Loop
5. Write a program to print 1 to 10 even numbers using a while loop
6. Write a program to print 1 to 10 odd numbers using For Loop
7. Write a program first ten multiples of 4 using a while loop
8. (Multiple of 4 are 4, 8, 12, 16.)
9. Write a program to print a multiplication table of 6 using a while loop.
10. Write a program Factors of 24 using while loop

11. (Factors of 24 are 1, ,3, 4, 6, 12, 24)
12. Write a program to print reverse of digits of numbers
13. Write a program to read 5 numbers and print only the even numbers
14. Write a program to print the Fibonacci number series up to a given number
15. Expected out 17 -: 0 1 1 2 3 5 8 13
16. Write a program to check a given number is Armstrong number or not

JavaScript - Array Assignment and Learning Path

Complete JavaScript – Arrays

1. How to Create Arrays in JavaScript.
2. How to Access Items from Arrays in JavaScript.
3. How to Access the Last Item from an Array in JavaScript.
4. How to Access All Items from Array Using for Loop in JavaScript.

Array of Objects

5. How to Create Array of Objects in JavaScript
6. How to Access Array of Objects Item in JavaScript
7. How to Create 2D Array in JavaScript
8. Simple Program to Sum of 2D Array in JavaScript
9. How to Access 2D Array Item in JavaScript
10. JavaScript Array Push Method
11. JavaScript Array Pop Method
12. JavaScript Array Shift Method
13. JavaScript Array Unshift Method

Slicing/ Array Slicing

14. JavaScript Array Splice Method Explanation
15. JavaScript Array Slice Method Explanation
16. How to Copy Data from Array in JavaScript
17. JavaScript Array Copy Data vs Copy Reference

18. JavaScript Use of indexOf Method
19. How to Find Index of Item in Array in JavaScript
20. How to Find Object from Array of Object in JavaScript

Find and Index

21. JavaScript Array find Method
22. JavaScript Array findIndex Method
23. JavaScript Object Find Index in Array
24. JavaScript lastIndexOf Method

Array Supporting Functions – ES6

25. JavaScript Array forEach () Method
26. JavaScript Array .map() Method to Work with Each Item of Array
27. JavaScript Array .sort() Method
28. JavaScript Array Sort Object Data using .sort() Method
29. JavaScript Array Custom Sort for Objects
30. JavaScript Array. reverse () Method
31. How to Sort Item in Reverse Order of Array in JavaScript
32. Create a Simple Program for Sorting and Filter Data of Food
33. Sort Table Data in HTML JavaScript Using sort () Method
34. JavaScript .includes() Method Example
35. JavaScript Array filter () Method Example
36. How to Use Filter Method in JavaScript Array

JavaScript – Recent Interview Questions

1. Write a JavaScript program to capitalize your first letter?
2. Write a JavaScript program to find the longest word?
3. Write a JavaScript program to remove duplicate names?
4. Write a JavaScript program to find the second largest number?
5. Write a JavaScript program to remove duplicates from arrays?

JavaScript - Task

1. Expense Tracker
2. Validate **Indian Mobile Number** using RegularExpression?
How to construct Regular Expression?
3. Calculator App
4. Todo App
5. Flipkart - Image zoom functionality?
6. **Convert Image into String Format?**
7. **Digital Clock - using JS, Bootstrap?**
8. Form Validation
9. Currency Converter
10. Weather App
11. CRUD App - using MySQL/MongoDB
12. Movie DB Api
